The File Hierarchy

Left Panel

Right Panel

P5
P3
P4
P2

You “park” your data (pictures, letters, etc) in your folder.

On computers you will usually find 2 or 3 ways to accomplish the same thing.
To see your File Hierarchy:
Left click on the start button>Left click on My Computer>Left click on folders. Now you should see this File Hierarchy.

To see the “content” of your folders, click on the FOLDER icon not the words.
Content will show up in the Right Panel.
